

# Portable Observation Lab

## Record Video with Multiple Cameras and Multiple Microphones Easily

The portable observation lab from Mangold International is the first choice for conducting video based observations in the field.

All necessary audio and video components are housed in a trolley and can be easily transported to the job site.

Whether at school, at campus, or at a shopping mall - Mangold's portable observation lab is set up in minutes. Build your lab just where you need it.

### Solution Benefits

- ▶ **Setup in Minutes** ▶ **Capture Full-HD Video and Audio Professionally**
- ▶ **Disassemble Quickly** ▶ **Use Resulting Videos Instantly**

- Special transport case, optimized at minimum weight and maximum stability
- Synchronized recording of multiple cameras
- Well proven video recording software VideoSyncPro included
- Lip-synch audio recording of all microphone signals
- Individual volume control for all microphones
- Central power supply for all devices
- All necessary cables included
- Future-proof modular system for easy maintenance and easy upgrading
